

Age Irrelevance

CHANGING THE NARRATIVE

THE 100 YEAR LIFE AND THE ROLE OF TECHNOLOGY

Our goal

1 million influencers believe in the Age Irrelevance mission to redefine life horizons in the era of longevity

Success

The Worshipful Company of Information Technologists supports the role of tech enabling 100 year lives.

800 members of the WCIT in the UK know about Age Irrelevance

Technology is fostering social connection bringing people together

AI powered devices support healthy lives

IMPACT & ACTIVITY

Engage the Worshipful Company of Information Technologists to help create a world where people can learn, work and connect across their lifespan.

OUTPUTS

Technology is playing a transformative role in enabling people to thrive across an extended life span.

CHANGE MECHANISMS

Universal design principles that include people as they age, including wearable technology promoting health.

OUTCOMES

Greater collaboration between innovators, policy makers and communities where age inclusion is about living longer, better lives.

The Worshipful Company of Information Technologists encourages best practices and knowledge sharing in the IT industry, promoting universal design and age inclusion
